

ENLACE 2022

Summer Research Experience

UC San Diego

Informational Session for Researchers - TecNM

Designing new technologies,
discovering the future, establishing
life-long collaborations

The ENLACE summer research program at UC San Diego aims to encourage the participation of students and researchers in the sciences and engineering, while promoting cross-border friendships.

The program is an opportunity to explore a variety of interests through work on varied projects, while challenging the person to always consider science in the context of societal needs.
