

# ENLACE 2022

Summer Research Experience

UC San Diego

## Informational Session for Students - TecNM

Designing new technologies,  
discovering the future, establishing  
life-long friendships

The ENLACE summer research program at UC San Diego aims to encourage the participation of students and researchers in the sciences and engineering, while promoting cross-border friendships.

The program is an opportunity to explore a variety of interests through work on varied projects, while challenging the person to always consider science in the context of societal needs.
